

Citoyennes, Citoyens,

Les résultats du premier tour de scrutin dans notre circonscription et dans l'ensemble du pays témoignent, de la poussée générale des for-

mations et des candidats réactionnaires et fascistes.

Voilà la conséquence de la division des forces de gauche et du refus des dirigeants du parti socialiste et du parti radical de gouverner le pays avec les communistes.

IL EN RESULTE : l'accentuation de la guerre d'Algérie, des dépenses militaires accrues, la réduction du pouvoir d'achat et des salaires, la vie chère et le chômage.

Personne ne peut reprocher aux élus du Parti Communiste Français la moindre responsabilité dans ce triste bilan.

Au contraire, notre parti n'a cessé de proposer l'union des gauches sur un programme commun.

Demain, si les travailleurs, les Républicains, ne se dressent pas au deuxième tour contre la réaction, la France aura une assemblée nationale de droite dominée par le grand patronat et les groupes financiers.

Cela aura pour conséquence l'aggravation de la politique de misère et de guerre pratiquée depuis 1947, alors que le peuple aspire à de grands changements pour le bien-être dans la liberté et la paix.

Contre ce grave DANGER

notre Parti avec

3.882.204 suffrages reste le premier Parti de France
et la seule opposition capable de faire reculer la réaction.

Dans la troisième circonscription (Châlons), Jean REYSSIER avec 6.650 suffrages est placé en tête des forces de gauche ; il est seul susceptible de battre le candidat U.N.R. (ex-R.P.F., ex-Républicain Social) et ses complices.

Tout républicain ne peut que regretter la position de M. Anxionnaz qui, en se maintenant au second tour, fait exclusivement le jeu de la droite et continue à pratiquer l'anticommunisme qui a fait tant de mal à notre peuple.

- Pour la paix en Algérie et la négociation immédiate ;
- Pour la revalorisation du pouvoir d'achat de la population laborieuse, permettant l'amélioration de la situation économique ;
- Pour une politique d'indépendance nationale de désarmement et de Paix ;
- Pour une véritable République démocratique, laïque et sociale ;
- Pour la vraie grandeur de la France :

Jean REYSSIER

Candidat du Parti Communiste Français

Remplaçant éventuel :

Gaston WAHARTE

Vu : le candidat.

Observations: 1940-1941

The first observation is that the French government has been very active in the field of international relations. It has been particularly active in the field of disarmament, and has been one of the main forces behind the movement for the reduction of armaments. It has also been active in the field of economic cooperation, and has been one of the main forces behind the movement for the reduction of trade barriers.

The second observation is that the French government has been very active in the field of international law. It has been particularly active in the field of the law of the sea, and has been one of the main forces behind the movement for the reduction of trade barriers.

The third observation is that the French government has been very active in the field of international justice. It has been particularly active in the field of the law of the sea, and has been one of the main forces behind the movement for the reduction of trade barriers.

The fourth observation is that the French government has been very active in the field of international cooperation. It has been particularly active in the field of the law of the sea, and has been one of the main forces behind the movement for the reduction of trade barriers.

Conclusion: 1940-1941

1. The French government has been very active in the field of international relations.

The French government has been very active in the field of international relations. It has been particularly active in the field of disarmament, and has been one of the main forces behind the movement for the reduction of armaments. It has also been active in the field of economic cooperation, and has been one of the main forces behind the movement for the reduction of trade barriers.

- 1. The French government has been very active in the field of international relations.
- 2. The French government has been very active in the field of international law.
- 3. The French government has been very active in the field of international justice.
- 4. The French government has been very active in the field of international cooperation.

The French government has been very active in the field of international relations. It has been particularly active in the field of disarmament, and has been one of the main forces behind the movement for the reduction of armaments. It has also been active in the field of economic cooperation, and has been one of the main forces behind the movement for the reduction of trade barriers.

Annexes: 1940-1941

The annexes contain a number of documents which are of interest to the study of French international relations in the period 1940-1941. These documents include a number of speeches by French leaders, a number of official reports, and a number of other documents of interest.
